## Installation Instructions:

Please read these instructions carefully before installation and make sure you fully understand them. Also, pay attention to how the luminaire is wired. If you require any further guidance, don't hesitate to get in touch with Vertically Urban.

Suspend the VU-ODYSSEY-100 using the most appropriate method for your installation. Below is an example installation using gripple wire to suspend the VU-ODYSSEY-100.

## Wiring

**WARNING!** Risk of electrical shock. Disconnect power before servicing or installation.

Using the junction box on the underside of the VU-ODYSSEY-100, connect to an appropriate AC (200~480Vac) power source following the table below. ensure that the cable is suitable for the installation location such as Lapp Ölflex Classic 100 as it provides water and chemical resistance. Always allow sufficient slack not to overstretch the cable. Do not bend the cable beyond its specified bend radius.

Wire Colour	Function
Brown	Live
Blue	Neutral
Green/Yellow	Earth

Ensure that the junction box lid is screwed down correctly and the gland is tightened to preserve IP rating.

## Cautions:

PLEASE TAKE NOTE OF LUMINAIRE AND DRIVER INGRESS PROTECTION RATING WHEN DECIDING LOCATION

MAKE SURE ALL CONNECTIONS MADE ARE TIGHT WITH NO LOOSE STRANDS AND WITH AN APPROPRIATE IP RATING.

DO NOT HOT-PLUG, ISOLATE ALL POWER BEFORE ADDING OR REMOVING FITTINGS.

DO NOT REVERSE POLARITY.

ALWAYS ALLOW SUFFICIENT SLACK ON THE SUPPLY CABLE TO REMOVE THE LUMINAIRE FROM ITS POSITION FOR ANY FURTHER MAINTENANCE

MAKE SURE THE SUPPLY CABLE IS NOT IN CONTACT WITH ANY SHARP OBJECTS; DO NOT LEAVE THE CABLE OR ANY CONNECTOR EXPOSED TO RAIN/MOISTURE FOR ANY PERIOD.

## **CAUTION!**

- *All images are representative and may not be the actual product supplied, depending on the ordering options.*
- *Avoid staring directly into the light beam.*
- *The product should be installed by a certified electrician and following local regulations.*
- *Take extreme care when working with mains voltages.*
- *There are no user-serviceable parts inside this unit. Do not attempt any repairs yourself. Doing so voids your manufactures warranty.*
- *During operation, the housing may become hot. Avoid touching the unit with bare hands while in use.*
- *Do not allow the product to operate in ambient temperatures above the maximum ambient stated on the datasheet. Doing so will void any warranty.*
- *Do not use aggressive cleaning agents! Any warranty will not cover any chemical damage to the seals.*
- **DO NOT "HOTPLUG" THE LED FITTINGS OR DRIVERS, AS THIS WILL INVALIDATE THE WARRANTY!**
