# EZ CONTROL

The EZ Control is a standalone controller for CEA applications primarily designed with lighting in mind, it is both quick to setup and simple to use.

Controlled entirely via the front panel with no additional devices required, the EZ Control is ready to go as soon as it is integrated into your system. Long-range wireless (LoRa) and (0-10V) wired connection options are available to make the installation as pain-free as possible.

Featuring full 0-100% dimming, EZ Control can be operated manually as required or automated through four programmable daily timers. In addition, the lockable enclosure ensures that the unit can't be tampered with once set.

## KEY FEATURES:

- Long-range wireless\* (LoRa) and wired (0-10V) connection options
- Quick and easy programming via front panel
- Up to 4 daily timers can be set
- Full 0-100% dimming range
- IP65 rated enclosure with clear cover
- Lockable enclosure to prevent tampering

\*Long range wireless option requires additional receiver equipment to connect to and control drivers. Details available on request.
